World Punjabi Organisation to arrange chartered flights for Afghan Sikhs

TNN / Aug 10, 2020, 06:41 PM IST

CHANDIGARH: World Punjabi Organisation president Vikramjit S Sahney will organize chartered flights to evacuate over 400 Sikhs and Hindus in Afghanistan in next few days in coordination with DSGMC and Indian Embassy in Kabul.

Sahney said that all the arrangements for the chartered flights have been made in coordination with the Ministry of External Affairs and Indian Embassy in Kabul to bring back over 400 Afghan Sikhs and Hindus staying in various camps in Gurdwaras.

He said the Sikhs and Hindu families are based in Kabul, Jalalabad and Ghazni. All the Sikhs and Hindus want to come back to India after the deadly terrorist attack on Kabul Gurdwara on 25th March where 26 people died.

He confirmed that necessary long term visas have been issued by the Indian Embassy and he thanked Hardeep Puri Minister Of Civil Aviation for coordinating and Home Minister Amit Shah having already assured that these persons will be granted permanent residency & Indian Citizenship in due course.

There are two Sikh MPs in Afghanistan Devender Singh Khalsa and Anarkali and there are several Gurdwaras but due to the current conditions all the Sikhs and Hindus want to migrate to India.

Sahney also stated that Delhi Sikh Gurdwara Management Committee will provide temporary accommodation to these migrants in Delhi at various Gurdwaras and after that all the families have been sponsored by Sikhs in USA namely Dalip Singh Sethi & Paramjit Singh Bedi under "My Family, My responsibility" to meet their household expenses for one year.

NEW DELHI: A Padma Shri awardee has made arrangements to bring back at least 400 Hindus and Sikhs who want to return to India from Afghanistan following a devastating terrorist attack in Kabul in March this year that left 26 people dead and injured 80.

Vikramjit S Sahney, the president of the World Punjabi Organization (WPO), has made arrangements for chartered flights to bring back the people of the two communities in the next few days, the organisation said in a statement.

"The families are based in Kabul, Jalalabad and Ghazni. All of them want to come to India after the deadly terrorist attack. They have been issued the necessary long-term visas by the Indian embassy," WPO said in a statement.

Sahney added that the Delhi Sikh Gurdwara Management Committee (DSGMC) will provide temporary accommodation to the families at various gurdwaras in the Capital.

He said that he would ensure that the evacuees are given skill development training which would help them find jobs in India. The Indian Embassy issued necessary long-term visas for the stranded people, the statement added, and Sahney thanked civil aviation minister Hardeep Puri and home minister Amit Shah.

Delhi man sponsors flights to ferry Kabul's terror-hit

NEW DELHI, AUGUST 8
Delhi-based philanthropist Vikramjit Singh Sahney has hired two planes to ferry Sikh and Hindu families from Afghanistan to India on August 14 and 25.

These families are based in Kabul, Jalalabad and Ghazni and are keen to come after the deadly terrorist attack on a Kabul gurdwara on March 25 where 26 people died.

Sahney is the international president of the World Punjabi Organisation. These flights will evacuate some 400 Sikhs and Hindus from Afghanistan in coordination with the Delhi Sikh Gurdwara Management Commit-

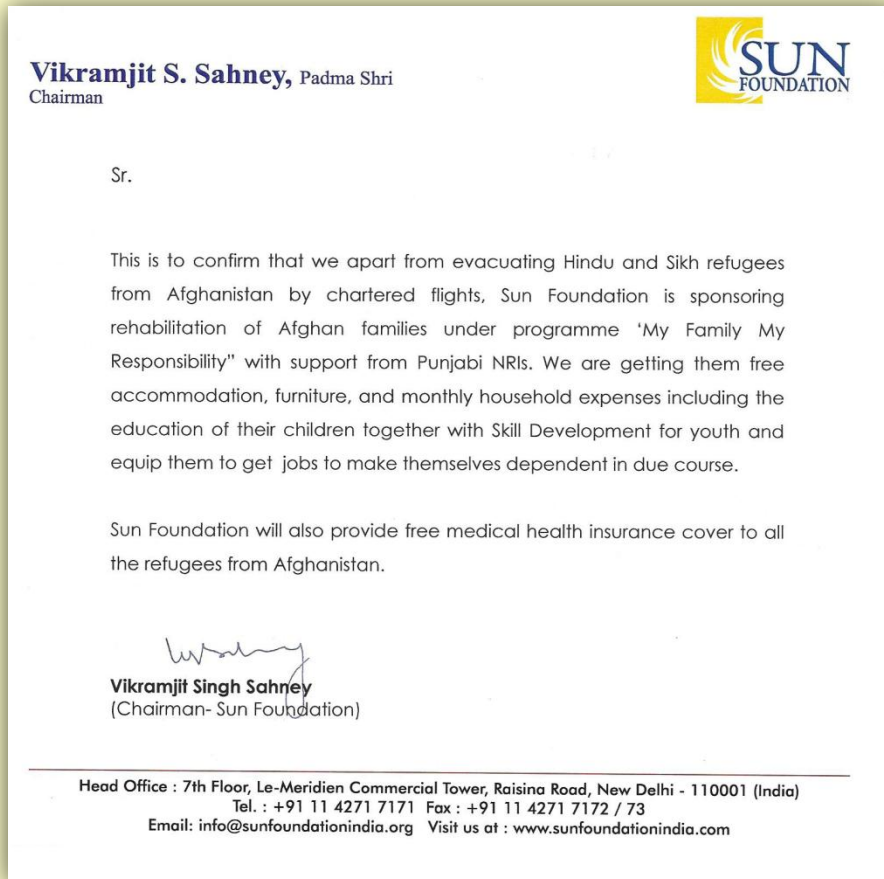

tee (DSGMC) and the Indian Embassy in Kabul.

The necessary long-term visas have been issued by the Indian Embassy. He thanked Civil Aviation Minister Hardeep Singh Puri for coordinating and Home Minister Amit Shah for already having assured that these persons would be granted permanent residency and citizenship in due course.

The DSGMC will provide temporary accommodation to these migrants in Delhi gurdwaras. All the families have been sponsored by USA-based Dalip Singh Sethi and Paramjit Singh Bedi to meet their household expenses for one year. — TNS

- **MY FAMILY MY RESPONSIBILITY:** The Sun Foundation is also running the program "MY FAMILY MY RESPONSIBILITY" for rehabilitation of Afghan refugees by providing them houses, furniture and household items together with bearing their monthly household expenses and education of their children.

- **ANGELS OF SUN:** Sun Foundation under the Angels of Sun project Paid 6 Lac as Final Year fee for MBBS Student **Ms Gursimran Kaur** who is a topper also and studying at Sri Guru Ramdas Institute of Medical Sciences.

Sun Foundation is also sponsoring coaching expense for these students.

Identification & Selection of Intervention:

CORONA TESTING MOBILE CLINIC & AMBULANCE:

Since early stages of onset of Pandemic in our country, during the daily bulletin as also through various other channels, The Indian Council of Medical Research had been highlighting the importance of mobile testing facility, which would enable testing of suspected patients in remote areas & containment zones without risking transmission of the virus to others. The procedure, thus, enable health officials to collect samples at the doorstep even in the densely populated areas of the national capital.

This was the cue to donate Corona testing mobile clinic & ambulance, add features like Artificial Intelligence, thermal testing, nasopharyngeal & oropharyngeal swab testing, airtight compartments and separate entry gates for doctors, public and driver too, fully air conditioned, sanitization facility outside vehicle and within at each step; pure air circulation, broadcasting & ambulance for quick evacuation of confirmed patient, etc. People get tested in the mobile testing van, which is modified in a way that health officials can sit behind a glass casing and collect nasal and the throat swabs of the people. The van also ensures that the health officials are not exposed to the people getting tested, by wearing gloves that protrude out of these glass casing of the van. The broadcasting facility creates awareness about testing with the help of mic and

speakers attached. The mic system also helps health officials in giving instructions and guiding people who have turned up for testing.

It was need of hour to ensure testing at door step since most people would not bring it upon themselves to go to medical lab facilities and it is facility at door step and also enable to curb spread by detecting it

First Corona Testing Mobile Clinic & Ambulance was donated by Mr. Sahney to Delhi NCR, flagged off by Chief Secretary of Delhi, for free testing in clusters and to contain the virus in best possible way. You will be happy to note that South District administration received SKOCH award as a result of combined effort of Mr. Sahney & South Delhi Administration in tackling the COVID situation.

2nd Corona Testing Mobile Clinic & Ambulance was donated for the benefit of rural population in Punjab. It was flagged off by Capt. Amarinder Singh in Chandigarh and since then has been continuously operating 7 days a week to test and identify positive cases.

DIL SE SEWA – GURUDWARA BANGLA SAHEB:

To address the widespread hunger and a humanitarian crisis that the society was facing during lockdown, Mr. Sahney took up yet another initiative towards preparing langar sewa – free community kitchen and a donation of Rs. 51 lacs was made to Gurudwara. This initiative was taken up focusing on the rich living tradition of food sharing as widely practiced in “Langars” or community kitchens practiced by Sikh primarily. Donation of Rs. 51 lacs was made towards procuring raw ingredients for preparing Langar sewa for poor as also towards salaries and financial help to Granthis, Ragis, Sewadaars & Langris of Bangla Saheb that continued for period of lockdown due to Corona. Cooked Food and dry ration was also taken to clusters to be distributed so that needy do not go hungry in times of health crisis.

This donation was made bearing in mind the resource crunch due to no sangat (footfall) because of lockdown.

- Dry ration included rice, lentils, wheat flour, sugar, potatoes & onion, cooking oil, salt, coriander powder, turmeric powder, red chilly powder, together with sanitizer and face masks. Ration was procured directly from wholesale vendor - VI Exports Inc, 4011/105, Naya Bazar, Delhi – 110006, so as to avoid unnecessary contact with multiple vendors.

DISTRIBUTION OF SANITARY NAPKINS AND FACE MASKS:

During pandemic, because of lack of funds, it has been noticed that many families from poor financial background tend to ignore personal hygiene for women and girls. The reason for distributing Sanitary napkin & face mask distribution was considered bearing in mind the need of the hour especially on Gandhi Jayanti as this day is symbolic towards Swachhta Abhiyan and face masks have become the dire necessity during this pandemic. The process continues.

Donation of fully equipped Corona Ambulances to Shaheed Bhagat Singh Sewa Dal

To reach out covid patients, Sun Foundation donated Ambulances to Shaheed Bhagat Singh Sewa Dal. These ambulances are equipped with state of the art collapsible stretcher, oxygen cylinder and other life saving machines. These ambulances can also be used as Mortuary van if needed.

Process for Selection:

DETAIL OF SELECTION OF TARGET POPULATION:

- a. **CORONA TESTING MOBILE CLINIC & AMBULANCE:** Since the corona testing van was donated to state functionaries, the target population on daily basis was selected by State Department only. The data, however, has been maintained 100% and can be checked from their record as also the records of Health Ministry of the Union Government.
- b. **DRY RATION & DIL SE SEWA :** a. Gurudwara premises were selected for distribution of cooked food, dry ration and salaries of above referred personnel so that humanitarian work during this crisis situation continues without any hinderance or lack of funds and material.
- c. **Distribution of food and dry ration kit** was also undertaken in the slums of west Delhi / Trans Yamuna slums. Nearly ten thousand beneficiaries included Industrial and construction labour residing in clusters in west delhi & '84 riots victims. These beneficiaries were chosen since they were in dire situation of not having any food nor enough means to procure meals because of lack of funds and lockdown.
- d. **DISTRIBUTION OF SANITARY NAPKINS AND FACE MASKS :** Distribution of one lac Sanitary Pads and face Masks was undertaken on 2nd October as part of personal Hygeine, dignity of women and protection from Corona as a mark of respect to the memory of Mahatma Gandhi and clarion call of PM Modi ji . It is a matter of pride that the sanitary napkins and face masks were made by the inmates of Nirmal Chaya who have been trained by Sun Foundation, NGO of

Mr. Sahney. The complete line of sanitary napkin production has been set up and donated to Nirmal Chaya by Sun Foundation. Girls are not only trained for free, they are encouraged to produce and are paid stipend too. These sanitary napkins and face masks are distributed for free and shall continue to do so.

DONATED FULLY EQUIPPED AMBULANCES: Donation of fully equipped Corona Ambulances to Shaheed Bhagat Singh Sewa Dal with state of the art collapsible stretcher, oxygen cylinder and other life saving machines, for transporting CORONA patients from slum areas to hospital. These ambulances can also be used as Mortuary van if needed.

Process Implementation:

DEPLOYMENT STRATEGIES DURING PANDEMIC :

(a) CORONA TESTING MOBILE CLINIC & AMBULANCE:

Deployment of Corona Testing Mobile Clinic & Ambulance in Delhi: Mr. Sahney donated this corona testing mobile clinic & ambulance to Delhi Government and it was flagged off by Chief Secretary SHRI Vijay Dev for the vehicle to be deployed in sync with information received from ICMR about immediate need in various clusters and the same was done under control of DC, South seven days a week with full control on data.

2nd Corona Testing Mobile Clinic & Ambulance was donated to Punjab that was flagged off by **Capt. Amarinder Singh**, *Hon'ble Chief Minister of Punjab* and it has since been on the move in clusters and colonies in Ludhiana on daily basis . Daily testing report is being maintained by Health Department of Punjab Govt.

(b) DRY RATION & DIL SE SEWA :

For distribution of dry ration, Mr. Sahney received volunteer support from Delhi Sikh Gurudwara Management Committee, local MLAs & Councilors, Local social workers as also Temple and Gurdwara staff

(c) DISTRIBUTION OF SANITARY NAPKINS AND FACE MASKS :

Brought Asha workers from Delhi NCR in buses (with social distance) to Nirmal Chaya, Tihar Jail Compound and distributed boxes of sanitary pads and face masks to them. These sanitary napkins and face masks were then distributed to girls and women from poor and downtrodden section of society so that personal hygiene and safety is not compromised in due to lack of funds in present crisis of pandemic. The process continues.

Monitoring and Evaluation: Ensuring last mile delivery during restricted movement

Other than monitoring COVID 19 testing mobile clinic in Delhi & Punjab, rest of the projects were personally executed by Padma Shri Vikramjit Singh Sahney himself with the help of his support staff and the management of Gurudwaras, Nirmal Chaya, nodal officers etc. in the respective area. Corona Testing Mobile Clinic and Ambulance was donated to Delhi & Punjab government during lockdown when the testing was the prime need and it was not advisable for people to get out of homes to go to the testing labs especially since no public transport was available. The first van was donated on 1st June 2020 when the covid 19 peak had begun to set in and it was vital to get maximum testing to ascertain the positive cases and

contain the spread. Soon after the 2nd bus was fabricated and donated to Punjab where strict lockdown was implemented due to rapid increase in corona cases. Tracing the covid 19 cases has been fundamental step to contain the virus and it has definitely resulted in drop in the peak as also in the recovery rate rising to 90% plus. Not dropping its guard, both the corona testing mobile clinics & ambulance are continuing to test and detect the positive cases on daily basis.

- a) **Money donated to gurudwaras** towards langar for poor and homeless helped the management to continue to serve humanity without a dent .

Target number of distribution of dry ration to poor and needy was ten thousand that could sustain the beneficiaries till more help came along from various sources.

- b) **One Lac sanitary pads and ten thousand face masks** ensured ten thousand target beneficiaries of slum areas through Asha workers of Delhi NCR region.

THE CHALLENGES AND LEARNINGS WHILE DESIGNING AND DEPLOYING PROGRAM DURING THIS UNPRECEDENTED PERIOD

- a) **Corona Mobile Testing Clinic & Ambulances** : It was a challenge to fabricate the bus during lockdown with minimum work force, procurement problem & designing the bus for optimum use. Never the one to give up, Mr. Sahney handled all this consciously through online survey, ordering, virtual meetings with fabricator & Delhi Administration and managed class 1 Corona Testing Mobile Clinic & Ambulance equipped with Artificial Intelligence for online data storage and donated it when it was in dire need. The technology used was discussed

with DC & fabricator over web since we could not meet or see the fabrication. Labour was difficult to get and to push the fabricator to finish the job speedily was a challenge.

While the vehicles were being handed over and flagged off, extra caution was taken to maintain distance within the media persons present that was the basic of understanding and living with COVID 19.

Similarly, the bus for Punjab was outfitted amongst all above challenges but Mr. Sahney's outcome oriented determination resulted in getting the bus fabricated in record time to be donated to Punjab Government for free testing when the cases were on a high surge.

- b) **DRY RATION & DIL SE SEWA** : Inviting the end beneficiaries to receive **dry ration** was a challenge that was met with the help of councillors and MLA of the areas. It was also ensured that while the beneficiaries gathered to receive dry ration, they are all sitting at reasonable distance from one another and water

and biscuits were provided to them to eat while they were queueing up to take ration kits so that none should remain thirsty or hungry.

- c) **Sanitary Napkin & Face Mask Distribution** : getting Asha workers from different areas in pvt. Buses with social distancing was a challenge. Mr. Sahney arranged for vehicles to fill up with 1/4 seating capacity with volunteers to ensure each one was tested for body temperature, shoe fumigation and each one to be wearing masks at all times. The venue had seating arrangement at prescribed distance and the boxes were duly sanitized before handing.

Through this initiative of Mr. Sahney, safety has been well taken care of in times of pandemic crisis for those who are not able to afford and also not to venture out unnecessarily. We are happy that during this crisis situation of pandemic, where personal hygiene and safety becomes a challenge for poor families, we were able to provide sanitary pads and masks free of cost to ensure that pandemic should not be cause of other issues of health and safety because of financial constraint.

Financial Resources:

TOTAL EXPENDITURE INCURRED ON THE PROJECT AND THE SOURCES OF FUNDING
